Konstantin Leschke - Bass & Synthesizer
Raphael Wittenburg – Drums
Oliver Lusga - Guitars

THOUGHTS is an instrumental metal band from Rostock/Germany.

Inspired by scene heavyweights like Tesseract, Leprous and Meshuggah, the trio delivers an independent mix of post- and progressive metal: layers of dense and crystalline guitars. Heavy and complex bass. Atmospheric and catchy synthesizers. Brachiality meets fragility. Polymetrics meets groove.

On March 27, 2026, the band will release their debut LP OF THE RADIANT VOID.

The album was produced by Chris Edrich (TesseracT, Leprous, The Ocean, Devin Townsend) and Pierrick Noel (Leprous, Alcest, Klone, Hypno5e).

The first single THE LUMINOID was released on January 15, 2026, with an music video on all streaming platforms.The second single DESCEND ◆ DISPERSE followed on February 17, 2026, including a music video, too.

THOUGHTS aims to turn every concert into a journey through sound and light. The band uses an automated timecode light show with its own lighting hardware on stage to create a captivating overall audiovisual experience: Glistening strobe in dense fog. Silhouettes in front of bright colors. Beams of light breaking through the audience.

The band's references include sold-out concerts with the international bands Brutus (BE), Gaerea (POR) und Juneau (BE).
