EPK 2026

Konstantin Leschke - Bass & Synthesizer

Raphael Wittenburg – Drums

Oliver Lusga - Guitars

THOUGHTS is an instrumental metal band from Rostock/Germany.

Inspired by scene heavyweights like Tesseract, Leprous and Meshuggah, the trio delivers an independent mix of post- and progressive metal: layers of dense and crystalline guitars. Heavy and complex bass. Atmospheric and catchy synthesizers. Brachiality meets fragility. Polymetrics meets groove.

On March 27, 2026, the band released their debut LP OF THE RADIANT VOID.

The album was produced by Chris Edrich (Tesseract, Leprous, The Ocean, Devin Townsend) and Pierrick Noel (Leprous, Alcest, Klone, Hypno5e). It was released on recycled vinyl and digitally on all streaming platforms, and has been hailed as an outstanding debut in reviews both at home and abroad:

Krachfink, BetreutesProgen, GermanProgReviews, TheProgspace, BabyBlaueSeiten, SlavestateMag, ProgMania, The ProgressiveSubway, Rockline and more.

THOUGHTS aims to turn every concert into a journey through sound and light. The band uses an automated timecode light show with its own lighting hardware on stage to create a captivating overall audiovisual experience: Glistening strobe in dense fog. Silhouettes in front of bright colors. Beams of light breaking through the audience.

The band's live references include sold-out concerts with bands like Brutus (BE), Gaerea (POR), Oh Hiroshima (SWE), Feather Mountain (DK) and Overhead the Albatross (UK).
